## Billy's Stone Crab Restaurant

400 N. Ocean Drive, Hollywood  
954-923-2300 | [www.crabs.com](http://www.crabs.com)

Crazy for crustaceans? Look no further than Billy's Stone Crab, where the view of the Intracoastal is as stunning as the seafood is delicious. Most diners, while impressed with the extensive menu, stick with stone crabs and need only choose from medium, large or jumbo claws along with choice of sides. Landlubbers' tastes are well accommodated, and the little ones also with a great children's menu. After a short-lived retirement from many years in the seafood wholesale and restaurant business, owner Bill Hershey and his family have delighted diners from all over the world at the now famous eatery. Billy's also offers the unique experience of chartering its boat **Crack N' Crab**, then they'll cook up your catch. Open for lunch and dinner. Seafood market, take-out and over-night shipping in the U.S. available.
